Make Your Will Patriotic

HALF THE

BY ELMER E. ROOFES

WILL that breather the fragrance of pure, unalloyed American pa-triotism from a to z, and possibly among the first so executed, has just been drawn by the writer for a citizen of Chicago.

The novelty is the result of suggestions by client and attorney, both of whom are firm distiples, the one as writer and both as readers or subscribers of the patriotic papers such as THE MENACE, American ilizen, The Jeffersonian, The Sentinel of Liberty, the Christian Herald, The Prot estant . Magazine, Truth Seeker, and others throughout the world. The significant part of this remarkable will is its provision that any marriage of any of the testator's children to Roman Catholics shall cut off from inheriting any of their father's real and personal estate.

And to make doubly sure that his wishes are obeyed, his children are bequeathed only a life interest in his estate which is to be cut off entirely the moment of marriage to a Roman Catholia.

The will further provides that the children of any non-Catholic marriage shall never come into more than a life interest, so as to prevent his grandchildren from marrying any Roman Catholic.

In the unspeakable event that all his children and grandchildren marry Roman Catholics, the testator wills that his entire estate, real and personal, shall, as he happens to be a Freemason, go to Mason ic charitable institutions. If every true patriot will only imitate

this man and restrict his charity and in heritance to non-Catholics, Roman Catholicism would very soon become as dead as a mummy and the world be blessed.
